WHEELING CONFERENCE APPOINTMENTS.
—Several members of the M. E. Conference returned home last evening, from the annual meeting at Parkersburg. The appointments made for Wheeling, as published in the Register and Standard, were so garbled up that we have been requested to give them as they really are, viz:

THE OHIO COUNTY RETURNING BOARD

The Ohio County Returning Board—
The Commissioners of Election are still hard at work at the Court House examining the returns of the recent election. The returns from Ritchie district occupied their attention all day yesterday. In that district the tallies were found to be bad, and there were a number of discrepancies in the count. The entire vote of the district was recounted. The Commissioners will meet this morning at 9 o'clock and take up the returns of Richland and Liberty districts, which are the only districts they have not yet certified.

As a singular fact it is noted that in Triadelphia district E. M. Atkinson, Republican, was elected County Commissioner over D. S. Thornburg, Democrat, by only two votes, and Liberty district gave C. S. Terrill, Democrat, the same small majority over David M. Blayney, Republican. Mr. Thornburg did talk of contesting the election in his district, but no formal notice of a contest has yet been served. The law requires the notice of a contested election to be served before the expiration of ten days, and as the ten days expire with to-day, if there is any contest in Triadelphia district due notice must be given of the same to-day. Mr. W. P. Hubbard appeared before the Commissioners of Election as Mr. Thornburg's attorney.

On the 10th inst, while the party were waiting at Moorefield for their traps to come along, before going down to "The Trough," Darrah went down to the bridge and threw in his line, and soon pulled out a fine bass weighing 51 pounds. ONE of the most surprised mea in the city yesterday was a stone mason in South Wheeling, who had built a dam in the gutter on Eoff street, and when he went to look for the water which he expected to find, there was none. His calculations had been upset for the time by a country-man, who ruthlessly drove his team through the dam and completely destroyed it. The damage was subsequently repaired.

Our readers may perhaps remember some of the details of the crime with which Brandon stood charged.
